K'Aun,

Attached are all of my e-mails which show my efforts to locate the missing tablet belonging to Robert Martinez. I have cc'ed Ryan Villa and Maria Armijo as representative of each side. I did vet the request through USMS OGC. They requested that I go through the pdf's and redact all phone numbers or e-mail addresses of the people who sent and received the e-mails; which was done. OGC also asked that these not be made part of the record or if they are to be sealed as they are internal documents for the USMS.

My understanding during the motion hearing and what I relied to USMS OGC was that these emails are being used to show that the USMS is making all efforts to locate the missing tablet. Based on this I would note in some cases, due to the redaction, it may be difficult to determine which facility or representative I sent the email to. I would state that the emails have been sent between the USMS, Sandoval County Detention Center, NMDOC PNM, Russ Aoki's Law Firm and the defendants own attorney.

Please let me know if I can be of any further assistance in this matter. If I do locate the tablet I will notify the court immediately. As I stated in court, the USMS will serve as a receptacle for all of the tablets regarding the defendants who have plead guilty. Once they are all collected I will ensure they are then turned over to defense (Ryan I imagine you will be my POC for this).

In an effort to help me out in this endeavor, please provide me a list of specific names of the individuals in which I need to collect the tablets from. This way I will know specifically which tablets defense is looking for.

Thank you,  
Mick

---

We had some tablets left in one of the ABQ SDUSM offices before I left. Possibly there?

[REDACTED] wrote:

Good Afternoon All,

I am trying to track down Robert Martinez's tablet (USMS and Tablet SN 83915-051). I have received some information regarding the tablet and in an effort to verify the information, I am reaching out to each of the heads of the specific facilities and any offices that may have come into contact with the tablet in an attempt to ascertain where the tablet currently is. Please review my information and if you can add anything to it, please reply all so that everyone receives the information. In addition, I am asking for everyone in the "TO" section of this email to search their respective facility for the tablet. Once you believe ALL EXHAUSTIVE MEASURES have been taken in an effort to locate the tablet, please reply letting me know if you have or do not have the tablet.

Robert Martinez was located at Sandoval County from 01.13.2017 to 05.13.2017. Sometime in May of 2017, his tablet was sent back to AOKILAW for updates. AOKILAW then sent the tablet back to Sandoval. According to Attorney C.J., the defendants attorney, his office was told by Sandoval that the tablet was sent to PNM Santa Fe. I reached out to PNM Santa Fe and was told that Martinez did not have his tablet upon return from Sandoval (which would make sense if Sandoval is stating they sent it to PNM Santa Fe).

It is my understanding that it has been since May of 2017 that the tablet has been lost.

Again, if anyone has tracking numbers related to this or anything else that may assist me in locating the tablet, please send them to me. Also, I am requesting that each recipient of this email search their areas to ensure they do not have the tablet and then let me know.

I want to thank everyone in advance for their assistance in attempting to locate this tablet.

Mick

Christopher "Mick" Mickendrow

[REDACTED]

P.S. Royce, do you possible recall anything related to this?

Hi Russ and Jennifer,

Can you let me know or provide for me if you have it, a complete list of all inmates with a list of what tablets they have? I don't know if their identified by identification number or how their identified but if we can get that listing.

The reason I'm asking, is I'm still looking for Robert Martinez's tablet for you all. And I'm hoping if we get a complete list of identification numbers, this may avoid this problem in the future.

Mr. Mickendrow,

I am attaching a spreadsheet that lists the names of the inmates and the tablet S/N Tag number that was assigned to each of them. This identification number is labeled on the top left corner of the tablets and can also be found on the screens when you turn on the tablet.

Please let us know if you have any other questions.

**Subject:** Missing Tablet  
**Date:** Thursday, January 25, 2018 12:01:24 PM

---

Good Day Deputy Director Romero,

I am attempting to locate a tablet that has been missing since May of 2017. The tablet belongs to Robert Martinez and is supposedly identified with his USMS # as the SN (83915-051). I am having all of the USMS offices search for the tablet but I was just informed that the tablet may have been sent to your facility. Could you please have your staff look for it? If by chance I happen to find it somewhere else, I will notify you immediately, but since it's taken this long to ascertain that it might be at your facility, I am not hopeful about finding it anywhere else.

Thanks  
Mick

---

So how do I know whose tablet is whose? I'll look to see if it was on his property when he came through the cellblock to get transferred to PNM. Do they have specific serial numbers assigned or anyway to identify?

---

**To:** Ashton, Shane (USMS) [REDACTED]  
**Subject:** FW: Robert Martinez's tablet

Can you help me out and see if you or anyone up there knows anything about a tablet. He was at Sandoval before he went to PNM for about 138 days.

**Subject:** RE: Robert Martinez's tablet

Rob had his tablet taken when he was in Sandoval, before returning back up to PNM. So it was taken by Sandoval / USMS when the tablet issue happened.

We have tablets that Joe had – it is not there.

Maria,

This is the first I am hearing of an issue with Robert Martinez's tablet. Can you or someone else give me some background so I don't waste time trying to track it down by contacting places that have already been called.

According to my records, he has been in NMDOC Santa Fe since May of last year. I am not sure why Sandoval would have his tablet.

Mick

We had some tablets left in one of the ABQ SDUSM offices before I left. Possibly there?

Good Afternoon All,

I am trying to track down Robert Martinez's tablet (USMS and Tablet SN 83915-051). I have received some information regarding the tablet and in an effort to verify the information, I am reaching out to each of the heads of the specific facilities and any offices that may have come into contact with the tablet in an attempt to ascertain where the tablet currently is. Please review my information and if you can add anything to it, please reply all so that everyone receives the information. In addition, I am asking for everyone in the "TO" section of this email to search their respective facility for the tablet. Once you believe ALL EXHAUSTIVE MEASURES have been taken in an effort to locate the tablet, please reply letting me know if you have or do not have the tablet.

Robert Martinez was located at Sandoval County from 01.13.2017 to 05.13.2017. Sometime in May of 2017, his tablet was sent back to AOKILAW for updates. AOKILAW then sent the tablet back to Sandoval. According to Attorney C.J., the defendants attorney, his office was told by Sandoval that the tablet was sent to PNM Santa Fe. I reached out to PNM Santa Fe and was told that Martinez did not have his tablet upon return from Sandoval (which would make sense if Sandoval is stating they sent it to PNM Santa Fe).

It is my understanding that it has been since May of 2017 that the tablet has been lost.

Again, if anyone has tracking numbers related to this or anything else that may assist

me in locating the tablet, please send them to me. Also, I am requesting that each recipient of this email search their areas to ensure they do not have the tablet and then let me know.

I want to thank everyone in advance for their assistance in attempting to locate this tablet.

Mick

Good Day Deputy Director Romero,

I am attempting to locate a tablet that has been missing since May of 2017. The tablet belongs to Robert Martinez and is supposedly identified with his USMS # as the SN (83915-051). I am having all of the USMS offices search for the tablet but I was just informed that the tablet may have been sent to your facility. Could you please have your staff look for it? If by chance I happen to find it somewhere else, I will notify you immediately, but since it's taken this long to ascertain that it might be at your facility, I am not hopeful about finding it anywhere else.

Thanks  
Mick
